

# **Jesus Christ is the Word of God**

*Erkki Kuisma*

Copyright © 0 - 2011 Jesus Christ

I strive to agree with Jesus Christ in all things, because He loved me and suffered the punishment of my sins. It is possible that I have been mistaken in some matters. However I trust that He will correct me, if I have misunderstood something. I love His reprimand and His comfort because without them I cannot remain in truth. Thus, if there is something wrong in these writings it is the fault of Erkki Kuisma. Jesus deserves the credit for everything that is right.

## Nature protection

**Does nature need protection, if it has managed to become so fine a system during the insisted millions of years only under the protection of chances? Don't people actually believe in the evolution theory? So that the protection of nature could succeed superhuman planning is needed. This planner should be as wise as God, who designed the fine systems of nature. What do you think that God will do, when mankind has spoiled His nature?**

### **The whole creation is groaning**

The mankind has had very much effect on creation during the last decades. Animals and plants are feeling unwell because of the actions of man. Many species of plants and animals disappear and the fine balances of creation are shaken, weather conditions are changing and the environment is polluted by artificial materials, which are not able to participate in the circulation of nature. What is your hope in this situation?

*"We know that the whole creation has been groaning as in the pains of childbirth...."* Rom.8:22 The friends of God know that the cramps of creation don't mean death, but the new world will be born. When Jesus died on the cross, the whole creation died, because it was created through Him. When Jesus rose from the dead, the whole creation rose to new life. What happened to Jesus will happen to the creation.

God knows what sinners are able to do on earth. They crucify the creation. If you don't believe in Jesus, you are maybe groaning how the earth can be saved. Jesus' people are also groaning, but for another reason. *"Not only so (the creation is groaning), but we ourselves, who have the first fruits of the Spirit, groan inwardly as we wait eagerly for our adoption as sons, the redemption of our bodies."* Rom.8:23

The labour pains of earth are becoming more intense and godless people will lose their hope. In the very darkest moment He will come and liberate the whole creation from its bondage to decay. The first step of the liberation is the resurrection of Jesus' people. He

will give his people new heavenly bodies. If Jesus is your hope, you will have the eternal happiness and life!

### **Planned or evolved world**

Recently the mankind has awoken to recycle products. The nature recycles, do you recycle too! The lack of recycling is caused by the fact that human activities are not regulated by a planning but a free development. When men have believed in evolution they have put their trust in the lie that "all will be evolved better by itself".

If men would give the glory to God as the Creator they could appreciate a good planning. To carry out a plan means the limitation of a free development that takes into consideration only the direct needs and the conditions of this moment. The development dictated by the human lusts is coming to its end.

A development only happens but a planning expects a lot of mental efforts. For all products must be defined the way from the raw material back to a raw material. All effects on nature must be known and take into consideration in usage. The planning that takes all into consideration is the job of God. The rebellious mankind must now try to do a job that is too difficult.

God has already planned all difficult things for us. If we would only have obeyed Him, we wouldn't need to try managing as gods. This is a good moment to awake up and to see the irrationality of the evolution theory. A pollution of nature must tell to a man that a freedom to do according his lusts leads to a chaos.

The motive of God's commands is a wise plan that is planned by a good heart. My obedience to God is a participation in the plan that is made by a person who is wiser than I. Some commandments can be felt enslaving, but if the Commander is known as the good one his orders are believed to be good ones, and therefore these can be carried out with joy.

The coming of Jesus Christ is the only true hope of nature - according to the God's plan that takes all into consideration. When waiting the fulfilment of this hope, it is a pleasure to God, if we try to ease the suffers of nature so well as we can.

## **Cloning of human being**

Soon mankind has a possibility to do such great things that it can be said: *"Then nothing they plan to do will be impossible for them."*

Gen.11:6 . These words God said when mankind had made the tower of Babel. He came down and prevented mankind from playing a god. He reprogrammed speaking centres of men and forced them to speak different languages, so that they didn't understand each other. Technology is reaching the heaven and unites knowledge of nations like the tower of Babel. God will also now intervene in this matter.

Cloning is interfering in God's work. He has already allowed man to do very much against the systems of nature. The ecological systems are crashing down by human activities. Now rebellious man intends to clone himself and improve the qualities of his body. A genotype of man contains all information that is needed to build a body. Think about it, the huge information in one cell! It is very well compressed information! Well done by God! However spirit is more than body, because body is dead without spirit.

Spirit also has "a genotype" that determines its qualities. That genotype is not a part of this creation. The qualities of body affect only partly in man's personality. The remaining part is the product of spirit. The aim of cloning technology is the immortality of human body. How do they suppose to develop the technology which moves a spirit from the old body to the cloned one?

Death is defined by God, because of man's rebelliousness. Man was driven away from the paradise that *"he must not be allowed to reach out his hand and take also from the tree of life and eat, and live for ever."* Gen.3:22 The resurrection of body is God's answer to man who tries to reach immortality.

If a little man is able to clone himself, is it any miracle that the great God is able to raise from the dead? Does an axe say to its creator: "I will make for myself a new arm, better than the one you have made." Oh, God is very wise! You cannot find a better planner!

The resurrection body of Jesus is the prototype for a new man. They who believe in Jesus will get a new body from God, not cloned from old one, but a completely new kind of heavenly body. *"The*

*Lord Jesus Christ, who, by the power that enables him to bring everything under his control, will transform our lowly bodies so that they will be like his glorious body."* Phil.3:21

Also they who don't believe in Jesus, will get a new body, in which they are able to be in the fire of hell for ever. Everybody will get a new body according to the quality of one's spirit.

Now it is your time to reach the reconciliation with God and to experience the miracle in your spirit. The look of your spirit to the Son of God crucified for your sins makes it possible for God to implant into your spirit the genotype of new life. Inside of your old sinful nature starts to grow the new man who is born of the Spirit. He will burst into his bloom on the day when Jesus comes with all his holy ones.

### **Natural or gracious selection**

Evolution-believers explain the origin of species with "the natural selection". The weak individuals have died and the good ones have remained to generate. The generation of species which is based on conditions is very limited, but all is possible to the Lord of conditions. *"At the present time there is a remnant chosen by grace. And if by grace, then it is no longer by works; if it were, grace would no longer be grace."* Rom.11:5-6

God selects an individual who is able to receive his grace. This person will enter the new divine family which is created through the atonement work of Jesus. The bloody reconciliation of Calvary is offensive to the religious ones and foolishness to the reasonable ones. *"But God chose the foolish things of the world to shame the wise..."* 1Cor.1:27

Which is your shame, sophisticated sense or religious sensibilities? Your genes don't order your destiny, but your ability to humble yourself before God's calling. Grace will select you, if you select humbleness. It is only question of your humbleness to take seriously the Bible's Jesus.

A believer has now the spirit and soul of God's child, but a body will be divine after the resurrection. *"The Lord Jesus Christ,...., will*

*transform our lowly bodies so that they will be like his glorious body."* Phil3:21

A religious feeling says that a person, who has done well, must have a good future. A sophisticated sense says that a person, who has done in the right way, must have a good future. Jesus says:  
*"Whoever hears my word and believes Him who sent me has eternal life and will not be condemned; he has crossed over from death to life."* John.5:24

The Bible version used in references is NIV

## **Mad cow disease**

**Mad cow disease is a new warning to mankind about its godless life. Because this world is designed, not evolved it would be better to follow the instructions of the Designer.**

### **Why meat for vegetarians?**

Cow is a vegetarian. It is not a surprise if a cow becomes ill, when it eats meat-and-bone flour. What foolish things people are doing! God has promised to change one day all carnivores into vegetarians.

*"The wolf and the lamb will feed together, and the lion will eat straw like the ox." Isaiah 65:25 "The cow will feed with the bear, their young will lie down together." Isaiah 11:7*

Rebellious men would like to do things the other way around.

### **Unnatural world is sick**

Nowadays mankind trespasses against God more than all earlier generations, because it has so good technical possibilities to carry on unnatural things. No other generation has had so much knowledge of nature.

Although this generation has seen so many miraculous deeds and wisdom of God in nature, it has not praised God but chance for them. Therefore its guilt before God is huge. It is God's love when He sends plagues to hold down sick life of mankind who loves unnatural things.

A cow that became ill from BSE is called mad because it behaves in odd ways. In the eyes of God men's sinful behaving is madness. Sin is mad man disease which finally makes him to act against his better knowledge. Fortunately God sent Jesus to be a medicine against this disease.

### **Cow as a sign of the time**

At one time God spoke to the pharaoh through a dream. There were first seven fat cows and then seven gaunt cows and then the seven gaunt cows ate up those fat cows. The fat cows meant the seven years of good crops and the gaunt ones predicted the seven bad years. Mad cow disease is the warning for pharaohs of our days. It

tells them that very soon God must deal with mad mankind in the same way as we now must deal with mad cows.

Egypt was saved because Joseph advised the pharaoh to collect a part of harvests of the good years for the bad years so that the stored food could be eaten during the bad years. What can we do now? Let's change into organic production! It is rightly but not enough. People must also give up their rebellion and worship God. Worship the Great Designer, the code maker of DNA codes, the Almighty God!

### **Jesus died for mad ones**

Because we are sinners we are condemned to death like cows who have mad cow disease. Jesus is the only one who is clean and deserves to live. However God so loved us condemned ones that He gave Jesus to die instead of us. This was done so that we could be cleansed of sin and could live forever.

The Bible version used in references is NIV

## **Development or growth**

**When God planned this world He created seed to be one of the basic things. The way of a seed back to the seed is a cycle in nature planned by God. Because there is a seed there is growing. Words are mental seeds which grow into deeds. Mankind's deeds are fruits in accordance with their seeds. They are the result of growing not the consequence of development. Deeds of evil can sometimes appear good as green fruits but never then when they are ripe fruits. Because a good and a bad seed can look similar faith is needed to resolve which is the good one. Our life will produce that fruit whose seed we sowed into our hearts. The most important thing is the result, not the beauty of growing.**

### **What kind of technology is ripe?**

The development of science and technology has lately borne such fruit which is not only nice. At the beginning of the last century it was not yet easy to see what kind of fruit was coming. After the Second World War the blooming of technology charmed everybody.

Now many have tasted the taste of the nearly ripe fruit. It tastes pollution and catastrophes. All good that man has achieved is cursed. One step forward in one case brings with it two steps devastation elsewhere. They are saying: "Don't worry, very soon we have everything under control," though all their possibilities are slipping out of their hands.

The ripe fruit of the godless technology is deadly filthy though its flowers and green fruits have advanced human life more than ever. Human wisdom that forgot God is the seed without wisdom. It is like a cancer whose rebelling spreads like gangrene and kills finally everything. Many are wondering what will be the top of the development! It would be better to ask: What is world ripening to?

God announced to us already for about 2500 years ago the reason why the world will be polluted. *"The earth is defiled by its people; they have disobeyed the laws, violated the statutes and broken the everlasting covenant. Therefore a curse consumes the earth;*

*its people must bear their guilt. Therefore earth's inhabitants are burned up, and very few are left.*" Isaiah 24:5-6 It is easy to predict, if you know, what will grow from a seed. *"He who sows wickedness reaps trouble."* Prov.22:8

### **Development or growing**

Everything bears fruit according to its seed. When the fruit is ripe it is obvious to all if the seed was good or bad. Before it we must only believe which seed is good. Actually a development is only "growing from a seed to the fruit".

A godless person believes so much in development that he thinks that a bad seed can in good circumstances bear good fruit. Therefore he doesn't receive the good seed, but plays with bad seeds. Species don't change into others, neither a bad seed into a good one, no matter how many years you add.

Everything has its creator and the secret of growth is built in seeds. Your possibility is there that you receive a good seed and let it grow and reject a bad seed, and if they managed to grow, you pull them up by the roots.

### **Bad and good seeds**

Who take care of bad seeds that they germinate and grow well in the world? Are they those who sow bad seeds and make them grow! In the same way it is with good seeds.

Seeds of words are more remarkable than seeds of plants or animals. Words can be the seeds from which thoughts are growing. There are lot of words that are fruitless and they germinate in nobody's heart. They don't bear any fruit. On the other hand only one word - said in certain spirit - can bring with it a whole world. Although a bad seed has germinated in the heart of every person it needs not to bear ripe fruit. Also a good seed has germinated in many hearts, but it bears ripe fruit only in few hearts.

### **World is soon ripe**

*"I looked, and there before me was a white cloud, and seated on the cloud was one 'like a son of man' with a crown of gold on His head and a sharp sickle in His hand. Then another angel came out of the temple and called in a loud voice to Him who was sitting on*

*the cloud. 'Take your sickle and reap, because the time to reap has come, for the harvest of the earth is ripe. So He who was seated on the cloud swung His sickle over the earth, and the earth was harvested. Another angel came out of the temple in heaven, and he too had a sharp sickle. Still another angel, who had charge of the fire, came from the altar and called in a loud voice to him who had the sharp sickle, 'Take your sharp sickle and gather the clusters of grapes from the earth's vine, because its grapes are ripe. The angel swung his sickle on the earth, gathered its grapes and threw them into the great winepress of God's wrath.' Rev.14:14-19*

Do not believe that the mankind would have a great future through the evolution or any development. Instead of it everything will grow and ripen into the harvest in accordance with its seeds. The good seeds sowed by God will produce a good harvest that will be gathered to God. The harvest produced by bad seeds will be gathered under the pressure of God's wrath.

The Bible version used in references is NIV

## Seeds of words

**Words that we heard may grow in our hearts into thoughts. Often we suppose that our thoughts are our own ideas, and we don't notice that the seed, which is planted by someone, has germinated in us. The seed that germinated in you may be the seed that you will sow forward.**

### **At first word then thought**

Which came first, egg or hen? It is obvious that the hen was first, because God created it. Which was first, word or thought? The answer is the same than in the case of the hen. At first man heard a word, and it gave a thought. Words are like seeds that bring forth thoughts, when their meanings open up. Jesus says: *"Man does not live on bread alone, but on every word that comes from the mouth of God."* Matth.4:4

Jesus advises to aim at the hearing of God's speech. *"Therefore consider carefully how you listen."* Luke.8:18 A read word can be left without hearing. Also a heard word can pass by the inner ear.

Life is not in the Bible but it is in Jesus Christ. He says to the Jews who adored the scriptures of the Bible: *"You have never heard God's voice nor seen his form, nor does his word dwell in you, for you do not believe the one He sent. You diligently study the Scriptures because you think that by them you possess eternal life. These are the Scriptures that testify about me, yet you refuse to come to me to have life."* John.5:37-40

Although they read the Bible eagerly, they were deaf to God's voice. The same concerns many Christians. Everybody has sometimes experienced how a certain word that we heard affected us very strongly. Since that moment we started to live by that word knowingly or unknowingly. What we see and feel enchants us easily so that we don't notice the word which at the same moment is impressed on our heart. Often we forget the word that we heard although we start to think according to it. Therefore we may have the opinion that thought was first and then word. The seed-word moulders in our soul and in its place the world of ideas is grown like a plant.

## **Words are seeds**

When we say something, we shed seeds from the plant that once germinated in our soul. Our thoughts are the garden of our soul. Our deeds are its fruits. If your deeds are bad, you must break new ground in your garden of thoughts and sow a good seed.

*"Break up your unploughed ground and do not sow among thorns... How long will you harbour wicked thoughts?"* Jer.4:3,14 When the words of Jesus hurt the opinions of listeners, He said: *"Every plant that my heavenly Father has not planted will be pulled up by the roots."* Matth.15:13

## **Spirit of a seed**

The heard word that is impressed on our heart takes with it a spirit. When man receives the gospel of Jesus, he will get Holy Spirit.

*"And you also were included in Christ when you heard the word of truth, the gospel of your salvation. Having believed, you were marked in Him with a seal, the promised Holy Spirit..."* Eph.1:13

It is very important for you to become aware of the seed-words of your inner life, because only then you will have a real possibility to make a choice for the quality of your life. You can "return to your roots" and check the origin of your thoughts.

Everyone has believed some word and got the spirit of it. Devil sows his seed so secretly that you hardly notice when you had a share in his faith. God sows his seed in day light and doesn't secretly plot you to have a share in his faith.

The Bible version used in references is NIV

## Technology in crisis

**The development of technology has led to the decline of nature. When does it reach the limit where the conflict between nature and technology turns to the real war? What kind of technology would fit nature? Who is the wise, who will save the world?**

### Technology and nature

God's nature and man's technology are obviously conflicting with each other. The world of technology is like a monster that terrorises nature polluting and destroying. God created everything beautiful and good. Man created his machines unadaptable with nature.

The green movement preaches: Take into consideration the nature, so "the world will be saved". Do you believe in that salvation?

The current technology could please God, if mankind would have consulted Him. Because the relationship between God and mankind has been broken, godless people with their defective knowledge have led technology to the bad direction.

The previous century was the century of technology. The changes of technical devices have been very great. The trend into which we have got is leading to a devastation. It is not easy to get out of this trend. It is just as difficult for a sinner to change his life style as to change technology friendly to nature.

The supply of energy is one of the main things that we can get machines running. If mankind would have consulted God in the decision of energy for a hundred years ago, we would now have totally different kind of technology.

Using nuclear energy proves the wrong trend of technology. We can say about an atom that, "what God has joined together, let man not separate". Nuclear weapons are suicidal vehicles of mankind, who will intend to punish itself with them before God manages to do it. He who intends to make a suicide, wants to take off from others the possibility to judge him. God will use the nuclear power on his doomsday. *"But the day of the Lord will come like a thief. The heavens will disappear with a roar; the elements will be destroyed by fire, and the earth and everything in it will be laid bare."* 2Pet.3:10

The two world wars "advanced" technology. All machines that mankind makes are marked of violence and burning. This sinful generation is not able to develop proper technology. Man himself must be changed that technology could adapt to nature.

### **A new nature and science**

God has created a new man through Jesus Christ. When God's people have experienced the resurrection, they are able to develop godly technology. At first we will rest a thousand years. After that I think that God will show me the source codes from which DNA codes are compiled.

Because I am a software designer, I am interested in how DNA compiler works. It may be that I am not any more interested in programming after a thousand years. In any case now I admire God as a great encoder.

Jesus is the best scientist, for He knows everything. Therefore ask Him. *"They may be encouraged in heart and united in love, so that they may have the full riches of complete understanding, in order that they may know the mystery of God, namely, Christ, in whom are hidden all the treasures of wisdom and knowledge."* Col.2:2-3

Of course you cannot enter the secrets of God in any order. In a normal school you also must start from elements. *"I have spoken to you of earthly things and you do not believe; how then will you believe if I speak of heavenly things?"* John.3:12 Firstly Jesus speaks to us about what is right and wrong in our practical life.

He proves us our guilt that we would be able to understand why it is the love of God, when Jesus died for us on the cross. The elements are learned by hearing the gospel. When you have put the gospel into practice in your life, you have stepped to the way, where God's secrets will open up to you and you will find new treasures of which nobody even dreams in the universities of this world.

### **Information technology**

In nature electricity is harmonic waves. In computers it is splitting pulses. Mankind's rebellion against its Creator can be seen also in the digital technology. In nature electricity waves softly, but in computers it is edged waves. In DNA coded by God the information

of one memory storage location is based on 20 different states. A computer's memory is based on only two states. God's and man's ways of thinking are different. God's "machines" are based on chemical reactions and computers on arithmetical operations.

By developing the analogical technology it could be made machines, which would be better integrated into nature. The memory in binary form is the base of the present information technology. If somebody would have invented a better way to save information in analogical form, we would now live in the world of better machines. This would be on the condition that it also would have been invented the processor which handles analogical information.

The digital technology makes magnetic disturbances. A digital processor is a state machine that goes easily to a failed state. It is needed only a little bug in the code and the control is lost. Man's body is an example of a fault tolerant processing system. Genes are designed by God to be the permanent storage places for information like ROM memory in a computer. In the same way nerve cells save information temporarily like does the RAM of computers. Both need electrical refreshment so that information could stay.

Digital behaviour has also a bad effect on the software development work. Because programming languages are bound together with the processor, it is not possible to handle with a simple way world's events, which have almost always analog behaviour. Source codes have become so complicated that even the wisest man cannot control them. Therefore the digital technology is a time bomb, which will explode when it has enough complicated behaviour and is widely used. The problem of the year 2000 in computers is just the first warning. Man is not able to take into consideration matters widely enough that he could make technology which fits nature. Bits will be always too few.

Surely the bit-technology and Jesus have something in common. *"Simply let your 'Yes' be 'Yes', and your 'No', 'No'; anything beyond this comes from the evil one."* Matth.5:37 The state of bit must be either true or false in other words one or zero in the same way as our answers to questions. Jesus is speaking here about topic, "do

not swear at all". Some people have specialised in promising so that whatever will be the result, they can say that they have kept their promises. Their speech is waving between yes and no so badly that nobody finds it out. Is the matter true or not, is also the basic of science.

The proper science is based on the truth, not on any hypothesis. Therefore the evolutionism is not based on the science, because it is only a theory. It is not good to swear for your theory, but to search the truth. People's trust in evolutionism has created a mental atmosphere, where planning is not respected. In many situations people think that well, somehow it will be developed automatically, just like it also has happened to nature. This deceitful optimism makes many people promise great technological miracles in future, though they now are perishing with their current products.

### **Who is a wise planner?**

*"If only they were wise and would understand this and discern what their end will be!"* Deut.32:29 To be able to plan wisely one must know the consequences of one's deeds and the end, to which it leads. If the consequences are not taken into consideration, it will happen unfortunate surprises. *"Take heed, you senseless ones among the people; you fools, when will you become wise? Does He who implanted the ear not hear? Does He who formed the eye not see? Does He who disciplines nations not punish? Does He who teaches man lack knowledge? The LORD knows the thoughts of man; He knows that they are futile."* Ps.94: 8-11

Senseless people don't understand to honour God, who has planned and created this wonderful nature. Would Microsoft give their source codes for the modification a man, who knows nothing about their coding practice? Why should God allow people to manipulate genes? No man has enough sense that he could understand the coding practice of God, which He has used in His DNA -codes. Trying to do that is not even the worst part, but doing it without asking any permission.

Mankind's impudence goes worse and worse when it rebels against God. In many ways public knowledge is manipulated to be aware about the enemy who will come from space. Human minds are

prepared for the battle against God. *"They are spirits of demons performing miraculous signs, and they go out to the kings of the whole world, to gather them for the battle on the great day of God Almighty."* Rev.16:14 People trust so much in the miracles of their technology that they will be ready to go to the battle against Almighty.

God has shown His love to you when He sent Jesus to atone your sins. God's wrath was once on Golgotha and the great day of His wrath will come again. Then God's wrath will not anymore be upon His only Son instead of sinners, but it will hit to sinners, who didn't care to receive Jesus as Saviour of their own sins. Through Jesus' sacrifice anybody can now get peace with God. Become wise and sign the peace treaty of Golgotha very soon, if you have not already done it!

The Bible version used in references is NIV

## **God's logic**

**God is the God of order and peace. His creatures tell us something about Him. When He does something, He is logical and systematic. His logic is miraculous. Chaos is somewhere far beyond the back of God.**

### **The dimensions of God**

The one and only God is introduced in the Bible as three persons: the Father, the Son and the Holy Spirit. If we look at the creation we live in, it is completely sensible talk that  $1 = 3$  and  $3 = 1$ .

The dimensions of space, material, man, sense and knowledge resemble the dimensions of God. Of course the Maker is seen in his deeds. Compare the following trinities.

God = Father, Jesus, the Holy Spirit

Space = height, length, width

Material = solid, liquid, gas

A human being = body, soul, spirit

Sense = sight, hearing and feeling (taste and smell are included in feeling)

Knowledge = act, word, thought

Sin = selfishness, greed, pride

Salvation = love, faith, hope

### **The Father, the Son and the Holy Spirit**

God, the Father is high up and sits permanently on the throne. The only valuable aim is to see his shape.

Jesus came a long way, when He being God became a human being, being the perfect man became a sinner on the cross for our sins. He came from Heaven to Hell and back to the Brightness. His soul was shed to the ground that we could be able to hear the voice of God.

The Holy Spirit is present all over the world, so widely that no thought can hide from God. He is invisible, but his touch can be felt. Only God is wise!

### **Truth table of the gospel**

Let us define the boolean variables A and B in the next way:

A = false: I love injustice and sin and I hate justice and righteousness.

A = true: I love justice and righteousness and I hate injustice and sin.

B = false: God hates me and I am under His judgement.

B = true: God loves me and I am under His grace.

From these two variables can be made the truth table where all four possible states are:

The state 1: A = false and B = false, result = godless man

The state 2: A = true and B = false, result = man under the law

The state 3: A = false and B = true, result = man of lawlessness

The state 4: A = true and B = true, the result = man of God

Everybody can understand that only one of the four possible states is good. The state one gives the result that I love sin and I am under God's wrath. The state two gives the result that I love justice and I am under God's wrath. The state three gives the result that I love sin and I am under God's grace. The state four gives the result that I love justice and I am under God's grace.

The state one means that man is obviously godless. The state two means that man tries to get God's favour through his own deeds. He is a religious and good man, but he doesn't accept the atonement work of Jesus which God offers him. In the Bible he is called a man under the law. The state three means that man believes in Jesus, but yet he wants to live in sin. Many who are called Christians are this kind of people. In the Bible they are called men of lawlessness. The state four means that man is man of God. He has got the access under God's grace after receiving Jesus as the Saviour of his own sins. He has received Jesus also as his Lord and God. When looking at the glory of Jesus he has learnt to love justice and to hate injustice.

### **Logic of the gospel**

Man who is struggling with his feelings of guilt considers it good news, if he hears that his injustices are forgiven. Man who is fighting against his bad lusts considers it good news, if he hears that he needs no more to sin.

The better man knows God, the more sensitively he feels his guilt after doing wrong. On the other hand, the closer to God he is, the more sensitively he also experiences all other things as God does. He doesn't remain prisoner of his guilt, but believes that God forgave him, because God experiences that the sacrifice of Jesus is enough to reconcile all sins to Him. He also doesn't remain prisoner of his bad lusts, because cleanliness and goodness which are coming from God teach him to love justice and hate injustice and give also power to live pure life.

How can we turn also the other variable to the value true in the case of the man who is under the law? The stressing of God's graciousness doesn't influence him, because he doesn't feel the need of any grace! Therefore it is better to appeal to the inadequacy of his own goodness compared to the perfectly good God. May his guilt wake up when he looks at the perfect goodness of God in Jesus Christ. Maybe he will humble himself to comply with the fact that also he needs Jesus for atoning his sins.

How can we turn also the other variable to the value true in the case of the man of lawlessness? The stressing of God's holiness doesn't influence him, because he is so happy in his faith. He doesn't feel any need to live holy life. Therefore it is better to appeal to the fact that Jesus must be Lord in his practical life. May he wake up to see the glory and power of Jesus. Maybe he will humble himself to confess that he has misused God's grace and he will receive Jesus as the Lord of his life.

How could we turn the both variables of the godless one to the values true? We pronounce him the crucified and resurrected Jesus Christ so that he would directly become a true believer.

Jesus exists, so that you would see in His light the truth of yourself and God. Jesus died for you, that you could be forgiven your sins.

Jesus was resurrected and lives, that you could have the Lord, who will give you a victory over all your temptations and over the power of evilness and will lead you to the friendship of God and the richer life than the variety of whole nature.

## **Blessed division**

In mathematics it is so that a number can be divided with a number that is less than one. However we cannot apply this division in our practical affairs. If you divide some number with the number that is less than one, you will be outside of your normal experiences, because quotient is greater than the dividend number. Or how do you divide a bread with the half?

One divided with half is two.  $1 : 1/2 = 2$

Jesus fed over five thousand men with some breads. He took a bread to his hand and divided it with the half and so from one bread it became two breads. We are able to divide a bread only with number one or greater. We divide it with two and give the half away and keep the other half ourselves. Often we divide a bread with one and keep the whole bread ourselves. In the fission of a cell it is also the same case, one is divided with half and the result is two cells. Life is blessed division.

*"Taking the five loaves and the two fishes and looking up to heaven, He gave thanks and broke the loaves. Then He gave them to the disciples, and the disciples gave them to the people."* Math.14:19

Because in His hands there is life, He can make a blessed division.

It is said about the congregation of the Bible: *"All the believers were one in heart and mind. No-one claimed that any of his possessions was his own, but they shared everything they had."* Acts 4:32 It was not like communism, because it said that what is yours is also mine. They had so good relationship with each others that they shared their needs. Their attitudes on ownership were changing when Jesus touched their practical life.

When Jesus set the Lord's Supper He took a bread, gave thanks and broke it and gave parts to His disciples and said: "This is my body given for you; do this in remembrance of me." The blood of Jesus was shed for the forgiveness of our sins, but His body died so that we could get a share of God's life. Jesus distributed Himself to us.

Also I have something of the life of Jesus. My life and deeds cannot prove to you the whole Jesus, but all believers together will do it. Some believer can maybe give you all knowledge of Bible's Jesus,

but one person cannot prove to you in practice the whole richness of life that is in Jesus.

He has dispensed His life to His owns. *"Now you are the body of Christ and each one of you is a part of it."* 1Cor.12:27 . A membership of a church is only to be a part of an earthly association, but to be a part of Jesus is a share in the blessed dividing that happened on Golgotha. He gave His body for you so that you would be able to eat God's word into your spirit and would get eternal life.

A follower of Jesus is a fraction. When all believers are added the sum will be one. They are "one in heart and mind". God says about husband and wife: *"So they are no longer two, but one. Therefore what God has joined together, let man not separate."* Matth.19:6

Husband and wife are so halves. When they accept to be dependent of each other they represent that blessed dividing that receives with joy children and produces the happiness of home.

The modern man wants to be the one integer. Therefore they stress that it is a union of two independent and whole ones. When they accept to be independent of each other they represent the selfish dividing that produces a cold and unkind home for children, if they are wanted at all.

Jesus Himself is the fraction  $1/3$ . He did not do anything alone, but always together with Father and the Holy Spirit. God is the One. Don't divide Him with three, but divide Him with  $1/3$  and you will get 3, in other words the Father, the Son and the Holy Spirit. Although He is three, the three are in agreement.

The Bible version used in references is NIV

# **God is a software designer**

**To the only wise God be glory for ever through Jesus Christ!**

## **Godly coding**

Everybody, who has done computer programs, knows that software coding is very demanding work. Who can design software that runs without errors or bugs? How to pay attention to every possibility?

In nature there are running many amazing "software programs" that use complicated communication layers and protocols. A DNA molecule is a brilliant static memory storage. There are genetic codes, that very well pay attention to complicated events. How many different software components are running in one plant or in a man! There must be many coding interfaces between the functions of cells.

It is ridiculous to think, that these interfaces are generated by chance and coded randomly. We know how difficult it is to come to an agreement about coding standards of software interfaces. Is the random choice better than men to come to an agreement? It would be easier, if one wise man could design all software. This is true in nature. God has designed it.

## **Godly processing**

We can easily see that there is software in nature, but where are processors of God? When a biologist watches life with a microscope, he can notice, that the form of the object is built of cells according to the code of an embryo. An engineer notices the same situation, if he looks at the memory of a computer with a viewer and the robot, what it does, when the software controls it.

The engineer knows where the processor of the computer is, but does the biologist know where is the processor of life? He can see many processes that are amazingly composed together, but is a nucleus the processor of a cell?

He can notice many balances between cell processes, but where is the main processor, that controls the completeness. In every possible place, there can be seen only data and activities, but not real processors. There is the genetic information, that codes the

activities, but it looks like invisible processors are driving the system.

The mutations are bugs in the code of God. A cell process can crash down, because there is a wrong command in DNA code. The processing of life is based on the relationships of the cell processes and the actions between different types of cells. Nerve cells form the network that is the information highway of the body. A brain is the genius random access memory. The nerve cables are skilfully made and wisely mounted. Praise to God!

For the different human features are allocated their own parts of the brain. When you speak, the data of this activity is seen in the speech centre. When you use your eyes, the graphic data is running in your head. Where is the operation system that loads the programs to a brain? What is that invisible operation system that controls life? In the bottom of a human brain there is the network card that connects us to our brain. My body is like a computer controlled robot that I use.

### **Godly operation system**

If we have a seed, that has all information to build the plant, what boots the machine? There are needed some environmental requirements, that the seed starts up. But how this dead element knows, that now all environmental flags are TRUE? What or who executes the boot sector of the seed.

God's Spirit is the operation system of nature. The spirit of a man is the operation system of a human body. When we are thinking, chemical and electrical activities happen in our brains. Some chemical changes also influence back to our thoughts, but our innermost thoughts are not made from the molecules of this nature.

There is inside us the different world that controls the processes of our body. The body is for the spirit and the spirit is for the body. They affect each others, and so there is the balance between the influences. When I think angry thoughts my body feels angry feelings. When my body feels angry feelings, my spirit falls to angry thoughts. When I decide in my mind to think kind and loving thoughts, it takes a while, when it affects to the body feelings.

When we die this great balance process is broken. Our spirit leaves our body, which shuts down our natural life.

Our soul can be a slave process to God's Spirit. He is Master. To live without God, means that the spirit network is disconnected to our Master. Sin causes connection failure between us and God.

Jesus Christ came to offer us reconnection to the Source of Life. The blessing hand of God is wonderful operation system. Jesus says to a sinner, that you are accepted and the soul is saved. Jesus puts his hand over an ill man and this was healed.

A human spirit is dead to God, if it has not the connection to God. Our body is dead, if it has not connection to our spirit. The connection to God must be established, when you have the connection to your body. After your body is shut down, it is too late.

### **Why human science is in the track of disaster?**

Because scientists don't worship God as Creator, they have lost wisdom. Whatever man does, it destroys nature. We are not able to save the world from evolutionists. Jesus Christ shall do it! He shall come on the earth and take the whole creation to his control.

The prophecy of Bible shall work in practice. Who has seen the evolution theory working in practice? There are some evidences from antievolution, bad mutations. The activities of man have caused bugs to the code of God. But don't worry, the data is not lost. All data is saved at God.

# The Good Planner

**The beginning and the end are the bases of planning. What there is at the beginning gives the available possibilities for planning. What there must be at the end determines the content of the plan. Untruthful possibilities and wrong goals distort the planning. Usually people do not plan carefully what there must be at the end, because they trust in getting a good goal through incidental evolutions. If they would be wise they would plan everything so that it is based on the perfect result. They would seek a strong enough beginning which would make it possible to plan the way that leads to the perfect end. God is the good Planner! He Himself is the Beginning and the End.**

## **Planning and goal**

In the TV's nature film there was said about an animal: "Nature has planned it..." Isn't it a fanny sentence? If the glory would be given God it would be said: "God has planned this animal." All the creatures of God are perfect in the sense that they have been designed for a certain purpose.

How could evolution plan anything? Defining the goal is the requirement for all planning work. A chance knows nothing about a goal. The starting-point of all planning is the available raw materials and the goal is to fulfil the needs of the end-user. The resources are the beginning and the finished product is the end. The beginning is always something fixed and permanent and the end can be whatever. Therefore it is essential to determine the end, because there is so little planning with the beginning. Often the basis is already fully defined.

For example a computer's software is made for the needs of the user and the features of the computer and the operation system are the bases. Linux can be the better beginning than Windows if reliability is required as the final result. Bad designing is the biggest problem of the technology. Unexpected and unplanned results are appearing here and there. Man so easily forgets to plan the end, because he doesn't want to think about his own end. Your birth is your beginning. Is your death your end?

### **Possibility-centric planning**

The greatest part of the product planning applies the possibilities offered by natural sciences. We can call the current practice the possibility-centric planning. It is stupid to build a technology only for the reason that we are able to do something.

The mankind should first plan to what kind of a world it wants to aim at. What is such a result that needs not to be improved anymore? When the goal is clear then it is possible to plan the means which are used to reach the goal. It's not done in this way, because the mankind believes in evolution not in planning. Often the only goal for the planning is simply to gain money.

### **The Beginning and the End**

Defining the beginning and the end are the bases of all planning. The greatest planner, God has said: *"I am the Alpha and the Omega, the First and the Last, the Beginning and the End."* Rev. 22:13 Although knowing the beginning motivates planning something, it is impossible to plan anything without a goal. Therefore knowing the end is so important. All is well that ends well.

If the goal is set too near to the beginning the planning will be short-sighted. It would be wise to begin the planning from the end or at least from the farthest known aim. Although the aim can often be reached by many ways the final aim affects also in all intermediate aims. Sometimes seeing the right goal can also open to see the truth about the beginning. God Himself is the aim of everything. He is also the beginning of everything.

### **The new beginning and the new end**

The beginning is an unchangeable thing, which is the basis of everything. Our values are a more important beginning than our birth, because on that ground we build our life. Many want to plan an own beginning for their life, because they don't accept God to be their beginning. They consider the Big Bang the beginning and the end explosion the end. Are not they hostile to God who is the Beginning and the End!

They would like to blow up God away from their past and future. If you consider the Big Bang the beginning, your values are only

fragments and the chance is a wiser planner than you. If you consider God the beginning, the unbreakable Rock is your ground. If you consider God the end, you live according to the perfect plan.

God wants to give you the new beginning through Jesus Christ. His sacrifice for the atoning of your sins gives you the new beginning. He also gives you the new end when you get eternal life as a gift. How could man plan his life if he is not interested in his beginning and his end?

If you consider the death the end, your life is a product which is made for the death. *"If only they were wise and would understand this and discern what their end will be!"* Deut.32:29 If you consider God the end, your life is a product which is made for Him.

The Bible version used in references is NIV

## **Cause and Effect**

**Investigate the chains of causes and effects. The cause of an effect is the effect of the cause preceding it. Follow that chain to the initial source of causes and effects. Also follow this chain towards future. What will be the effect of this cause? For what effect this effect will be the cause? What will be the final effect? Everything that happens has its cause, although guilty hearts hide them in many ways.**

### **The Law of Cause and Effect**

The creation is a complicated system of causes and effects. Intelligent effects don't appear by chance. Only planned causes produce appropriate effects. People who caused bad effects often say: It was not my fault. It happened by accident. The evolution of evilness proceeds in human minds, but at the end nobody can blame chance for his evilness.

Only He who has planned the laws of causes and effects knows exactly their final result. When God has beforehand told us what will happen at the end, He in that way informs us of the result of his calculations of causes and effects.

When believers are speaking about the terrible events of the end times some people believe that speaking about these things causes them to happen. They try to claim that there are no causes but only effects, which are fulfilled by themselves. In this way they express their rebellion against the law of cause and effect. The mankind suffers for its own fault and not because God would want it.

Do you confess you have rebelled against the law of a cause and an effect? If you desire to do something which you know to have bad effects, you burn to consider the cause good though the consequences are bad. Many also believe they can change the effects of their deeds good by the power of their positive thinking. Therefore prophecies of God concerning the truthful causes and effects of their deeds make them angry.

If we investigate deeds that God planned in nature, we notice super wise consistency, expediency and beauty. God is really the God of

order. If we investigate men's deeds in society and in technology, we notice inconsistency, purposelessness and filthiness.

Technology is used in efforts of trying to remove the curse in nature caused by the Fall. However it has not brought the Paradise back, but it is destroying even the rest of the loveliness of nature. Engineers integrate their implementations with human standards, but they don't honour enough the standards of God.

Also we ourselves can partly prophesy our future. We make mistakes in our calculations, and they all are not caused by our ignorance and our misunderstanding, but groundless optimism which comes from the heart that opposes the order of God.

### **Get effect by faith or faith by cause?**

What is the cause of your faith? Why do you believe? If you believe only because you want to get an effect by it, you are in the circle where the effect is the cause for itself. In that circle you easily forget the original reason that caused you to want the effect. Worth and power of your faith is in its cause. First seek the right cause and the effect will appear by its power.

God became Man in Jesus Christ and so showed that He loves you. Listen to this, because it is a good reason to believe and obey God. The faith, which saves you, is the effect of the cause of you hearing the gospel. Don't try to believe in God, but listen to Him. First make the decision of listening for getting the faith. You can make the decision of faith and give yourself to Jesus, only after you have got the faith caused by God.

Everybody would like to go to the Paradise of God after he died. To be able to reach this good effect we want to own the reason which would cause it. For what reason you could be saved? For your good deeds? Do you think that your baptism is the reason? Many have trusted their faith as the cause that gives them salvation. This is true, if their faith is the effect of the gospel of God. The bare willingness to be saved cannot cause the faith, which then would cause the salvation.

Many people don't see any need of a salvation, because they feel to be in no danger. They don't realize the danger, because they don't

care about real causes and about final effects. They only care about their momentary needs and how they get them satisfied. I, mine and to me are the causes they confess and my honour, my property and my pleasure are the effects they expect.

### **Selfish pleasure leads to sufferings**

If iron is heated enough, we know the effect, it fuses. In the same way we know the effect, if the selfish pleasures of people become bad enough.

If many enough of young people have sexual intercourse before marriage, the number of divorces increases. When we have many divorces, the number of reconstituted families increases. When we have many blended families, the number of incest and the number of mental disorders of children increases. When the family tree of the mankind becomes ill, it is natural, that the heavenly gardener cuts away the sick branches.

If many enough commit adulteries, the number of abortions increases. When many abortions are made, childlessness increases. When unbridled sex is practiced the threshold of the excitability comes higher and leads to unnatural sexuality, to homosexuality and to lesbianism. Unnatural pleasures kill the natural affections and make people unconcerned about other people.

The society that is filled with sexual lust materializes persons. This trains the minds of people to see their neighbour only as commodities. This makes the threshold of killing people lower. In this atmosphere people are more ready to destroy all the people they feel useless like to do abortion to unborn children and to kill handicapped and old people.

Nowadays it is common that sexual lust is considered love. When evilness is considered goodness, it makes it more difficult to recognize what is right and what is wrong. It prevents you from experiencing the genuine love.

God was in Jesus Christ and suffered on the cross the punishment that our selfish pleasures deserve. Only this sacrifice of the Son of God can destroy the consequences of your selfishness. The presence of Jesus sets you free from the slavery of your sexual lust.

Who is familiar with fornicating "love" seeks for sweetness and romance in the message of God's love. The gospel is to him as a love song that fondles only his feelings, but doesn't cause faithfulness to Jesus. God wants you to see His love in Jesus taking your place on the cross. Your evilness is the cause and its effect is the death of the Son of God on the cross.

### **Greedy property seeking leads to destitution**

If nature is robbed too much we know the effect the soil will be impoverished and it doesn't yield a crop anymore and fishes of waters will run out. In the same way we know what will be the effect of our greed.

Like people make themselves sexy to be lusted, in the same way consumer goods are made tempting so that also for them there would be a lust. If there are enough of those who have a lust to own a lot of goods, a consumption society has been created. A sexy product is glossy and beautiful and gives the impression that you are forced to buy it.

The lack of incomes limits the lust of owning and therefore loans are offered to those who suffer for the lust of owning something. Like the sexual lust breaks marriages so also the lust of owning causes people to live beyond their means.

When there are enough of those who live beyond their means for a long time it causes the economic depression. When the income of many people is based on the loans that others have got, they all will face a destitution on a same day. After a collapse the debts are forgiven and a wheel of greed is forced to run again. When the greed driven economy has faced many enough depressions it finally comes to the last depression, because the earth has been consumed out.

The consumption society is like a beast. Before it the earth is like the Garden of Eden, but behind it the earth is like a desert. It devours the whole earth and tramples underfoot whatever was left. Just now this beast has got a good speed, when it has taken also China and India under its power.

The mankind is not able to repress its lusts. Therefore the protection of the nature will not succeed. People are worried about greenhouse gases because of climate change, but why are they not worried about its original reason, about greed. When there is no will to follow the chain of causes to the very beginning, the attention is drawn to a secondary cause so that the basic cause could be repressed from consciousness.

God gave us the following prophecy about our time already for about 2500 years ago: *"The earth is also defiled under its inhabitants, because they have transgressed the laws, changed the ordinance, broken the everlasting covenant. Therefore the curse has devoured the earth, and those who dwell in it are desolate. Therefore the inhabitants of the earth are burned, and few men are left."* Isa.24:5-6

God was in Jesus Christ and suffered on the cross the punishment that our greed deserves. Only this sacrifice of the Son of God can destroy the consequences of your greed. The presence of Jesus sets you free from your lust of owning.

A heart trained in greed hears the message of God's gift as a purchase offer. He believes to get something valuable and even free of charge. The decision of faith is to him as a purchase decision and the preacher of the gospel is like a salesman, who convinced him of the worth of the decision.

Actually God has done a purchase offer of you. You are not buying, but you are being bought. When calling you He is asking you if you would like to become His own through the sacrifice of Golgotha. Of course everything that exists is God's property and He does with it what He wants. It is a totally different thing to become His own through the death and the resurrection of Jesus. You lose everything to Jesus, which means death to your greed. On the other hand by it you become the property of God in the happiest way any other creation can be.

### **Proud honour seeking leads to shame**

We know that everything that goes up will come down sometimes. In the same way we know what is the effect of our pride.

When some are boasting about their goodness some others become envious. Envy caused by pride divides people into parties which oppose each other. Envious people invent about themselves such things to boast about which cannot be boasted by those whom they envied. We live in the boasting society where people are nourishing their spirit with experiences that lift up their self-esteem.

People make themselves up to be honourable so that others would envy them. Their spirit shrieks with joy when they are proud of themselves. Who lives by the lust of glory finally loses healthy discernment about what really is worthy of honour.

If many enough live in the grip of sick ambition, it causes a war. Actually in a war there is nothing worthy of glory. Only those who think too much of themselves can be motivated to carry out the madness of war.

The mankind is not able to repress its lust for glory. Therefore war will continue until the end and desolations are the consequence of proud mind. A desolation caused by pride is a shame that for a moment frightens those who survived. However soon they have forgotten the shame and new boasters are ready to wage war again.

In the last war the mankind is boasting against God. Think, what blindness! They believe they are able to wage war against the Almighty. It is so because some are so clever that they can encourage people to think about themselves too much. *"They go out to the kings of the earth and of the whole world, to gather them to the battle of that great day of God Almighty."* Re.16:14

God was in Jesus Christ and suffered on the cross the punishment that our pride deserves. Only this sacrifice of the Son of God can destroy the consequences of your pride. The presence of Jesus sets you free from your lust for glory.

A heart trained in pride hears in the gospel of God the possibility to gain the status of a child of God. When he is disappointed with his earthly dreams he recognizes in the gospel the possibility to become something great by coming to faith. Jesus calls His own His brothers and it must be something great to be a child of God, they think.

In fact the gospel offers us the same kind of lot in this world as Jesus had. We can be children of God in Jesus Christ, but only in Him. As Jesus lived through His Father, when He walked among us, we too have to live through Jesus. If we don't remain in Him, also He doesn't remain in us. Thus if you are a child of God, do not boast about it, or you will wither like a branch that is cut away from Jesus-tree and is thrown into the fire.

### **Let God's Kingdom come!**

What it causes when God was in Christ Jesus and reconciled the world to Himself? This has many consequences, which will happen without our faith. The whole creation will be delivered from the curse of sin.

*"The creation itself also will be delivered from the bondage of corruption into the glorious liberty of the children of God. For we know that the whole creation groans and labors with birth pangs together until now. Not only that, but we also who have the firstfruits of the Spirit, even we ourselves groan within ourselves, eagerly waiting for the adoption, the redemption of our body."*

Ro.8:21-24

Jesus will come on earth and those who belong to Him are raised from the dead. Then the earth will be delivered from its pollution. The deserts will be changed into gardens and extinct animals will come back. Everything will be good again, just as it was before the Fall.

What effect will it cause in your life that Jesus died and was raised up? Although you would not believe Him, anyway also you are raised from the dead and you will get a new body later in the resurrection of the judgement. If you believe Him, in His coming you will get a new body that will be like His body.

Also today many experience the consequences of the death and the resurrection of Jesus. Those who live in His love don't make themselves sexy to be lusted, but the purity of Jesus appears in them as chaste behaving and as faithfulness in the marriage. Those who live in His Spirit don't live beyond their means, but they are happy with the way God has taken care of their needs. Those who live in

His faith don't boast about themselves, but they rejoice at God's grace.

You, man of God, do not become distressed at the destruction of this world, because that is like a cry of pain of a woman in labour. The new world will be born, when Jesus comes on the earth. So let's look over the darkness at the glory of God's Kingdom.

The Bible version used in references is NIV

## **Emissions of sin**

**People are worried about emissions of carbon dioxide because it can cause climate change. Why are they not worried about emissions of sin? Those are the ones causing mental climate change, which in its turn causes the whole nature to suffer. Evilness of man is the reason for all bad things in the world. Why are only of symptoms taken care of and nobody wants even to talk about the reasons?**

### **Climate of greed**

Works of greed are emissions of sin which consume too much natural resources. Your will to collect for yourself more than you need is greed and it has polluted the earth, because it produces unnecessary consumption. Love for money and property has polluted hearts and earth. Our greed is grumbling against God.

Do not rejoice over owning, but rejoice at not lacking anything necessary. Don't be diligent because of greed of money but because of your love to God and to people.

### **Climate of pride**

Works of pride are emissions of sin which cause people to hate each other and to be indifferent to nature. Wars are deeds of pride which destroy environment. Because of their pride people don't confess their mistakes, which has pushed them to create products that pollute and have poor quality. The atmosphere of hiding has produced a network of lies, which has pushed many to make decisions violating the nature. Our pride is rebellion against God.

Do not allow envy to boss you around and don't seek honour of people, but rejoice at greatness of God and let His glory nourish your spirit.

### **Climate of selfishness**

Selfish pleasures are emissions of sin, which rape nature. A human being, who is not able to control his selfish lusts, is not able to protect nature. Having sex outside a marriage carries out the same attitude as using nature resources irresponsibly. In both cases a passing moment of pleasure is taken disregarding the consequences.

Respecting virginity means nature protection. Bad lusts blaspheme against God.

Do not rejoice at sexual lust, but at your own spouse. Marriage is sustainable development.

### **Mental climate and mind change**

Mind change of people is more important than climate change of the earth. What could change proud, greedy and selfish minds of people?

Everyone knows that nature suffers because of our evilness. However its sufferings are minor if compared with sufferings of God. He has suffered more due to our evilness. He has informed us of serious consequences of our mental climate.

God has prepared for everybody the possibility to have a mind change. Pure mind doesn't cause evil emissions. God proved His love for us by becoming man in Jesus Christ.

Jesus took our sins and owned them in Gethsemane and thus took upon Himself also the punishment belonging to us. He died for you on the cross of Golgotha. Then the sun was darkened in the middle of the day, when God's wrath appeared to punish our evilness. Through this sacrifice God can forgive you and purify your mind. Jesus was raised from the dead because He has never done anything wrong. Now He is sitting on the Throne of God and waits for your response to His deed. Are you going to receive God's love or not?

Internalizing God's gospel is able to change your heart. Let your mind be changed by its power! In the light of God's love you dare to examine your evilness, because you know that you will get forgiveness for the sake of Jesus.

Be ashamed of your pride, your greed and your selfishness! Repent and grieve over your sin emissions! Put all your evilness on Jesus and accept your share in the punishment He took upon Himself instead of you. Turn to Him and confess your sins to Him. When God has forgiven you enter into the Covenant with Him!

## **The Holy Covenant of Love**

People enter into an alliance with each other to resist climate change, but you, enter into the Covenant with Jesus Christ to resist your own evilness. Join in the agreement of Golgotha and let Jesus be your Lord and your God. Being in subjection to Him gives you power to live a pure life. Because He lives also you can live new life.

God has richly provided us with good things for our enjoyment. Rejoice over God's glory that you see in His works of creation and in His Sacrifice. Keep in contact with Jesus and your soul will be nourished with Him. Only love to God gives you joy and purpose of life. Love God because He has first loved you.

We must treat nature right because we respect God's deeds. Many do it only because they want to take care of the consequences of our evilness in nature so that they could continue their life in evilness. They love so much their lusts that they don't want to give them up. Therefore they try "to heal the disease" only by treating the symptoms.

No actions of man can save the earth, because most people will not believe in Jesus of the Bible. Therefore the earth will be finally destroyed by emissions of sin. However God will create the new earth for His own people, who allowed themselves to be saved by Him. Therefore do not worry what will happen to this earth and to your earthly body, but make sure that you allow God to save you into His coming world. The Holy Covenant with God will give you the victory over all evil.

**Does nature need protection, if it has managed to become so fine a system during the insisted millions of years only under the protection of chances? Don't people actually believe in the evolution theory?**

**When God planned this world He created seed to be one of the basic things. The way of a seed back to the seed is a cycle in nature planned by God. Words are mental seeds which grow into deeds. Mankind's deeds are fruits in accordance with their seeds. Because a good and a bad seed can look similar faith is needed to resolve which is the good one. Our life will produce that fruit whose seed we sowed into our hearts. The most important thing is the result, not the beauty of growing.**

**Words that we heard may grow in our hearts into thoughts. Often we suppose that our thoughts are our own ideas, and we don't notice that the seed, which is planted by someone, has germinated in us. The seed that germinated in you may be the seed that you will sow forward.**

**The development of technology has led to the decline of nature. When does it reach the limit where the conflict between nature and technology turns to the real war?**

**God is the God of order and peace. His creatures tell us something about Him. When He does something, He is logical and systematic. His logic is miraculous. Chaos is somewhere far beyond the back of God.**

**The beginning and the end are the bases of planning. What there is at the beginning gives the available possibilities for planning. What there must be at the end determines the content of the plan. God is the good Planner! He Himself is the Beginning and the End. Investigate the chains of causes and effects. Follow that chain to the initial source of causes and effects. Also follow this chain towards future. What will be the final effect?**

**People are worried about emissions of carbon dioxide because it can cause climate change. Why are they not worried about emissions of sin? Those are the ones causing mental climate change, which in its turn causes the whole nature to suffer. Evilness of man is the reason for all bad things in the world. Why are only of symptoms taken care of and nobody wants even to talk about the reasons?**
